

Thickened and Weighted

High-Power Solid-State Heat Sink

Chimney Effect | High Specific Heat Capacity

Scientific Air Duct Chimney Effect

Through-type comb teeth, following the scientific air duct design, efficiently dissipate heat from the bottom to the top.

Genuine Materials Aluminum Alloy

Aluminum alloy features excellent thermal conductivity and heat absorption for rapid heat dissipation. Full laser cutting, no welding for greater durability.

Thickness

8.8mm

Average Thickness
4mm

*Data source: HS3D-075 Specification. The profile thickness and weight may vary with different batches without affecting performance, and the physical product shall prevail.

Guide Rail/Screw Mounting

Heat Dissipation Area Doubled

Precision CNC machined and meticulously finished with multiple processes including anodizing.

Select Specification

HS3D-045

Basic Parameters

- Recommended Solid-State Current Value : 35-50A
- Weight : ≈404g
- Relay Mounting Hole : Hole Spacing: 47.5mm Thread: 2-M4 (Customizable)
- Mounting Method : DIN35mm Guide Rail / Surface Screw

Overall Dimensions

*Note: Unit: mm. The dimension data is measured manually, so deviations may exist. Please refer to the actual product.

HS3D-075

Basic Parameters

- Recommended Solid-State Current Value : 75-125A
- Weight : ≈689g
- Relay Mounting Hole : Hole Spacing: 47.5mm Thread: 2-M4 (Customizable)
- Mounting Method : DIN35mm Guide Rail / Surface Screw

Overall Dimensions

*Note: Unit: mm. The dimension data is measured manually, so deviations may exist. Please refer to the actual product.
